

**District Deputy Grand Master's Message**

Brethren,

Let me begin by expressing my most sincere thanks and appreciation for your support and confidence by electing me to be the Grand Master's representative in Frontenac District. I am particularly grateful to the brethren of Albion Lodge for nominating me to the MAFD Management Committee. I am both deeply honoured and humbled to be the custodian of this office for this Masonic year, and I will do my level best to represent our Grand Master in our District.

It is an exciting time for Masonry as we see renewed interest in our Craft, especially among younger men and Masons. We are seeing younger men petitioning for membership at a rate not seen in many years, and I will endeavour to assist you, to the utmost of my power and ability, to capitalize on this wave, and to build and strengthen the Lodges in our district.

In continuing the Grand Master's vision of focusing on Ritual, Education and Mentorship, we will have a robust education program, which will include Lodges of Instruction, culminating in a Day of Masonry. We will have resources in place to assist with Protocol and Etiquette, Membership and Mentorship, and to promote the Cornerstone Program. Finally, the district project will tie into education and mentorship by raising funds for an education program developed and conducted by the Regional Assessment and Resource Centre (RARC) of Queen's University, designed to assist students with learning disabilities, so that they can be successful when they enter high school.

I'm excited for the upcoming year and I look forward to many evenings of fellowship and Masonic Communication with all of you.

Sincerely and Fraternaly,  
**R.W. Bro. Dale E.O. LaFreniere**  
 District Deputy Grand Master,  
 Frontenac District

### District Project

This Year's Project is The STEPS Program (Successful Transition from Elementary to Post- Secondary) developed by the Regional Assessment and Resource Centre (RARC) located at Queen's University.

This is a program for grade 7 and 8 students with Learning Disabilities, ADHD, and Autism Spectrum Disorder (ASD). The program is designed to reduce barriers, teach skills and strategies, and equip both students and parents with the knowledge and support needed for the students to confidently complete their high school studies and look to the future in the work place, or in post-secondary studies.

**Project No.: 2484**
